ATTORNEY-AT-LAW.

Packing Plants of Cudahy and Switt Thoroughly Examined.

COMMISSION IN OMAHA

calmed," arrived this morning, and spent the day by the city and left for Kansty that this evening. The morning was spent in South Omaha, where the plants of Cadaby and Swift were inspected and testigation was continued in the court martia at hemogeneners department of

At both Bwifts and Cudaliys the visitorn word given every opportunity to tre big deal of 'M. make a thorough inspection of the plants Returning to the office at the Cudahy plant the board took testimony. The first false. The estimates of his wealth, when Wilness Was Albert Christianson. He tes- at his height, place the amount anywhere tified as to the quility of refrigerated beet from \$2,000,000 to \$16,000,000; A conservasent to the army last summer and said tive estimate places his richest day at that no chemicals were used to preserve \$1,000,000.

Dr. D. C. Ayer, of the bureau of anima adustry at South Cmaha, testified to the insopotion of the animals. He stated that there was two impections, the ante-mor tem and the post mortem. After the posmortem examination the inspector has iid not think it would be possible for any outd hardly be taken from the vat to which the condemned boof was placed oning were the chucks and plates and at the beef was not of inferior grade. The company furnished this same qualof roast beef to the English army last ar and had no complaints nor was there over any of the cases returned Bolled beef, he said, was the same thing s the roast beef. The only difference in the lubels.

SWIFTS PLANT. After leaving Cudahys, the party took

he ambulances and drove to the Swift plant where the department in which the ams was cared was inspected. Dr. Chris ne had testified that while here he has en shown through the Swift plant and nw some sort of a liquid being injected

Thomas Adams, foreman of the depart nent, was called and testified that the peration was one having called actuicration was one having reference t he curing of hams and was not used it beef at any time. The liquid injected was salt peter and water and its only pur se was to sure the ham more quickly The man who shows the visitors through he house was next called and stated that he had shown Dr. Christine through on his visit here and that the operation a witnessed by the kearst was the same as that witnesses by the doctor.

After hearing this testimony, the board disturned and came to Omaha, After lunch it reconvened at the army head guarters and heard the testimony of sol liers who had been through the campaign at Santiago. Capts. Dunning of the 16th stanicy said that after their arrival Santlagothe men complained that they ould not car the meat and did not like stanemed. He was not prepared to an whether any sickness accurred by reaso of use of the canned beef.

Complaints on refrigerator boof wer that it was spoiled and the quarterman is were both to take it. His comman as insufficiently rational from July until it left Cuba.

bread and coffee and sugar, and when he beef was not used it left them short nonnelent transportation caused par f this shortage. On the voyage buck com Cubs canned beef was not eaten a all by the troops. The cans of heef he new in Cuba had no labels on. They ame from the box in that enadition. WAS A NEW RATION.

Capt. W. H. Heck, acting inspector gen ers! of the department of the Missouri said the canned beef used on the voyage o Cuba was a new ration to him. The men said the beef nanmated them. They used other things with it in an attempt in improve it. Some of the most was soft and presented an unsightly appearmee. The men wanted to exchange i for bacon, but could not do so because hey were in advance of their supplies The first supply of refrigurator beef was emarked upon favorably. Personally he thought it line. Later a quantity of t was found to be spoiled, which was at criticated to the exposure. Because some of the meat was in a had condition com antes did not get their full rations. He aid that he would not attribute the H eatth of the troops directly to the un the beef. He had no reason to believ hat any of the beef had been treated

Lient. Ishne Irwin of the 16th infantry ald that on the latter part of the voyage a Bantingo some of his men complained hat they could not eat the carned boot anding in Cuba whenever they could do a the men traded their cannod beef

or bacon A part of the time the meat appeared good when taken from the can bater II did not present as good an appearance, but he thought the troops used t all. He thought that the refrigerator beef was most delicious at first, but afterward it was received in bad condition and had to be buried. His company only echival two or three days good rations of beef while on the island and was in sufficiently substrated,

Sergeant Albert Kase of the 16th in fantry, testified that the men abundaned the cannot meat as a ration on the voyage to Cuba. Many of the men attributed States. It covers the entire their sickness to the use of this beef. field of agriculture, dairying, From the time of landing until the relive stock breeding and live telegrator heef was focused the complaints stock feeding. It is edited for continued and the best was not used it western farmers and stockmen there was anything else to take its place The refrigerator best was good when issued early enough, but several times when drawing rations he had refused to accept the beef because it was covered

tion price is one dollar a year, with green mold One third of the best was solled. Reour readers may get it next year turning from Cona the mes refused to cat the canned beef at all. He was of the opinion that canned beef was unsuitable

as a ration at any time. Death of "Old Hutch." Chicago, March 16.—Benjamin P. Huich-inson the former board of trade operator Commbla.
